

Base:
modified alkyd

Package:
400 ml

Inral CERAMICS HIGH-GLOSS COATING spray paint

INRAL CERAMICS is state-of-the-art enamel for high-quality surface finish. Ingredients ensure an ultra-hard surface with excellent application properties, high degree of whiteness and a long-lasting gloss. Surfaces painted with CERAMICS enamel have higher resistance to abrasion, cracks, scratches, peeling and temperature changes.

Area of use:

Suitable for baths, washbasins, furniture, fridges, washing machines, shower trays, tools, various items. For visual painting only; not suitable for repairs of holes or deep scratches.

Advantages:

- High gloss, excellent hiding power
- White color RAL 9003 "ceramic"
- Good adhesion, hardness and scratch-resistance
- Resistant to sunlight and rain
- Does not contain lead compounds or chromates
- Does not contain substances affecting the ozone layer

Spray passes:

2-3 cross layer, spraying distance: 30 cm.

Drying times:

- Touch dry: about 4 h.
- Other layers: up to 1h. or after 72h.
- Full dry: after 96h.

Yield:

2 m² (from one 400 ml. can, one layer).

Usage:

Clean and degrease the surface. Is recommended to coat with INRAL GROUND Anti-Corrosion primer. Shake the can vigorously for 1 min. Spray evenly on the surface at a distance of 30 cm. Most effective when applied as a thin coat, with breaks, in several layers. The coating becomes resistant and durable after 96 hours. When finished, turn the can upside down and clean the pulveriser by holding it down for a few seconds.

Safety data sheet:

presented separately.

Protection measures:

wear personal protection equipment (gloves / goggles). For more information, see safety data sheet.

Storage:

Store upright in a dry place at +5°C to +25°C. Do not expose the cans to direct sunlight or heat above 50°C.

Shelf life:

10 years if appropriate storage provided.
